

## What Do You Dread Most About The Coming Semester?

A poll for the upcoming semester -- select your answer and check out what others have said!

The new semester is starting. I know many grad students and professors are excited about the new opportunities, but many more have a sense of anxiety and even dread about all that awaits. I'd like to get a feel of what is most on your mind. Please answer the following question, then look at the answers that others have chosen.

There will be a place for you to write your comments once you've taken the poll, so feel free to elaborate about your answer. I'm open to suggestions for new polls, also.

Thanks for participating!
